Cell +54 2616084535

Mendoza - Argentina.

[LinkedIn](#) - [GitHub](#) - [Portfolio](#)

I am a Full-stack Developer, graduated from Henry Academy. There, I developed two web applications (a personal project and a team one). For front end, I have been using React and Redux libraries, and for back end, Node.js and Express frameworks.

I have long experience of working in professional teams as a leader as well as a collaborator, where I enjoyed joining forces to solve challenges.

I like meeting people from different countries and speaking English. I have always been interested in technology. I would love to work in a company where, I could apply my knowledge and skills to achieve its digital transformation.

### **SKILLS**

HTML, CSS, JavaScript, React, Redux, Node.js, Express, PostgreSQL, Sequelize and Scrum.

### **PROJECTS**

Full-stack Developer – Codebug  
Henry  
Argentina

June 2022 – July 2022

- Designed and developed an App as a team project. Codebug provides a space for questions and answers among programming students.
- Technologies: JavaScript, React, Redux, CSS, Material-ui, Bootstrap, Node.js, Express, PostgreSQL and Sequelize.
- Work environment using Scrum methodology and GitHub workflow.

Full-stack Developer – Dogs App  
Henry  
Argentina

May 2022 – June 2022

- Designed and developed an App about dog breeds.
- Technologies: JavaScript, React, Redux, plain CSS, HTML, Node.js, Express, PostgreSQL and Sequelize.
- Dogs App consists in searching, filtering, and ordering existing dog breeds. It also allows visitors to create new breeds.

### **PROFESSIONAL EXPERIENCE**
